Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Continued Examination Under 37 CFR 1.114*

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/27/2007 has been entered.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 10-14, 16, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Finch et al (US 6,120,492). Finch et al disclose in Figure 3a a pre-assembled needle/cannula combination including a catheter (10) in fluid combination with the combination, a needle (130) comprising a solid piercing member (132), and a cannula (120) surrounding the needle (130) in a snug fit, but still providing a clearance extending substantially along the length of the needle between the inner wall of the cannula and the outer wall of the needle to allow fluid to be communicated.

Art Unit: 3767

*Response to Arguments*

2. Applicant's arguments, see response, filed 2/27/2007, with respect to the 112 rejections have been fully considered and are persuasive. The 112<sup>th</sup> rejection of claims 15-17 has been withdrawn.

3. Applicant's arguments filed 2/27/2007 have been fully considered but they are not persuasive. Although Finch et al may disclose using an access cannula which just uses the access needle itself as a penetrating element without utilizing a stylet does not overcome the fact that Finch et al also disclose in Figure 3a an embodiment in which a stylet is used.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine N. Witczak whose telephone number is (571) 272-7179. The examiner can normally be reached on Monday through Friday, 8-5 EST.
